SPUN POLY NAPKINS & TABLE LINEN

Our spun poly collection, which now proudly extends to our table linens and bistro napkins, sets a new standard for the industry. Unlike traditional cotton textiles, our spun poly products offer remarkable advantages, making them the superior choice for any foodservice setting.

Fade-Resistant: The vibrant colors of our spun poly textiles remain intact wash after wash, ensuring that your table settings always look fresh and inviting.

Wrinkle-Resistant: Say goodbye to the hassle of ironing. Our spun poly textiles maintain a crisp, clean appearance, reducing preparation time and labor costs.

Stain-Release Technology: Spills and stains are inevitable in the foodservice industry. However, our spun poly releases food stains faster than cotton, ensuring a spotless presentation every time.
